<https://www.linkedin.com/in/le-vu-6271b021a/>

## CAREER OVERVIEW

---

During my final year at university, I interned as a full-stack developer and discovered my passion for webapp development. After graduating, I quickly gained extensive experience in code structure, cloud technologies, and system design, enabling me to solve complex business problems for customers. With a keen eye for detail and a creative approach to quality from both technical and business perspectives, I've had the chance to work and collaborate with some of the biggest names in the tech industry, such as FPT, CMC, VPBank, Myria.... My goal is to one day become a technical lead or solution architect, so I'm excited to continue honing my skills and taking on new challenges to achieve this ambition.

## EDUCATION & CERTIFICATES

---

### Hanoi University of Science And Technology (2012 - 2017)

- **Electrical and Electronic Engineering:** Very good (GPA: 3.43/4.0)
- **Scholarship:** 2012, 2014, 2017

## PROFESSIONAL SUMMARY

---

- **7 years** of experience in website software development.
- Demonstrates proficiency in **English communication**, including **listening** and **speaking** skills.
- Languages: **Javascript** (proficient), **Typescript** (proficient).
- 6 years experience with **Reactjs, Nextjs, Angular & Nodejs**.
- 3 years experience with **React Native**.
- 3 years experience with **NodeJS (Nestjs, Express)**.
- UI Library: **Bootstrap 4, Bootstrap 5, Antd, MUI, Tailwind, Chakra UI, Radix, Styled Component, SASS/SCSS**.
- Databases: **MySQL, PostgreSQL, MongoDB, Sqlite3**.
- Experience use framework: **Web3, Redux, Redux-Saga, Docusaurus, Strapi(CMS), TailwindCSS, Shadcn/UI, OAuth2, Clerk, AuthJS, Stripe, GraphQL...**
- Experience in mobile app: **Web3, dApp, Expo, ....**
- Intermediate working with **Websocket, WebRTC**.
- Proficient in **OOP, SOLID principles, design patterns**, and clean code practices.
- Knowledge and experience with **CI/CD, Docker** and **Kubernetes**.
- Developed git/code conventions and conducted code reviews, ensuring code quality.
- Version control: **Gitlab, Github, Bitbucket**.
- Experience working with **Agile Scrum** methodology, **Waterfall** methodology.

## WORK EXPERIENCE

---

### MYRIA (Consultant Remote)

3/2023-31/3/2025

#### Role: FullStack Developer

##### Project: Myria – Marketplace

- *Technology:* NextJS, Strapi, MonoRepo, Web3, Radix, Framer motion, Redux (Thunk), SocketIO, TailwindCSS, Amplitude analytic, NFT standard, ERC20 standard...
- *Responsibility*

- *Technology:* NestJS, RabbitMQ, MicroService, S21, MOM...
  - *Responsibility:*
    - Implement on task to handle order from MOM.
    - Handle some the wrapper order, tax...
- 

## EURO SOLUTION

9/2018 – 9/2019

**Project:** *EURO SOLUTION ( Mobile App)*

- *Role:* **Mobile Developer**
- *Technology:* React Native( Expo), React Native VLC Media Player, React Native Reanimated, Websocket, React Native Skia, React Native Draggable List...
- *Responsibility:*
  - Build smarthome app.
  - Build base and setup repo, base component.
  - Setup on the expo dev, ios and android platform.

**Project:** *EURO SOLUTION ( Admin Page)*

- *Role:* **Frontend Developer**
- *Technology:* ReactJS, DayJS, GoogleMap, Websocket...
- *Responsibility:*
  - Build admin dashboard smarthome.
  - Build base and setup repo, base component.

**Project: EURO SOLUTION ( Server)**

- **Role: Back end Developer**
  - **Technology:** NodeJS ( Express), Docker, MQTT, WebSocket, Zigbee2MQTT, OAuth2.0, RestAPI, Jest,...
  - **Responsibility:**
    - Build smarthome server with 16 services: Zigbee2mqtt, MQTT, HomeKit...
    - Build base and setup repo, setup docker ,build docker images and push to hub docker hub and build documentation to standardize server deployments.
    - New update: Integation with ChatGPT
- 

**FPT SOFTWARE**

9/2017 – 9/2018

**Project: SPACEBAR.TH**

- **Role: Frontend Developer**
- **Technology:** ReactJS, Sitefinity, HTML, CSS...
- **Responsibility:**
  - Build UI component and widget follow the figma design.
  - Optimize performance, SEO.
  - Guide documentation for the admin to manage content.

**Project : SOFTBANK**

- **Role: Frontend Developer**
- **Technology:** VueJS, Sitecore, HTML, CSS...
- **Responsibility:**
  - Build UI component and widget follow the figma design.
  - Optimize performance, SEO.
  - Write documentation to guide for the admin can be manage content.
