SUMMARY

Full-stack developer with about 8 years of experience developing and deploying web and mobile applications. Proficient in Javascript, Typescript, ReactJS, React Native, NextJS. I have built strong expertise in code architecture, cloud technologies, and system design, allowing me to tackle complex customer challenges with confidence and efficiency. With a keen eye for detail and a creative approach to quality from both technical and business perspectives, I've had the chance to work and collaborate with some of the biggest names in the tech industry, such as FPT, CMC, VPBank, Myria.... My goal is to one day become a technical lead or solution architect, so I'm excited to continue honing my skills and taking on new challenges to achieve this ambition.
